DETAILED ACTION

1. This a Notice of Allowability was mailed to application on February 25, 2005. Subsequently, a very pertinent prior art reference was discovered. Consequently, the Notice of Allowability has been withdrawn and a non-final rejection is included below. Any inconvenience caused by the withdrawal of the Notice of Allowability is sincerely regretted.

2. Applicant's continued cooperation is requested in correcting any errors of which applicant may become aware in the specification or drawings.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 29-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 29, line 3, "the method" has no antecedent basis.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-72 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Petrou et al., *"An XML-based, 3-tier Scheme for Integrating Heterogeneous Information Sources to the WWW"*.

Petrou et al. teach a system and method for using an XML-based structure for both a protocol layer and application data, in a client/server environment.
